The Australian Government is committed to an education system that pursues excellence for all Australian schools and where every child receives the highest quality education. This commitment has been backed through both a national agenda for school reform and unprecedented investment. Major reform priorities set by the government include raising the quality of teaching in our schools, ensuring all students are benefitting from schooling, especially in disadvantaged communities, improving literacy and numeracy outcomes, and improving the transparency and accountability of schools and school systems at all levels.

In partnership with the states and territories, the Australian Government has entered into National Partnerships in the key areas of addressing disadvantage, supporting teachers, and improving literacy and numeracy.

Catholic Education South Australia’s (CESA) implementation plan addresses each of these reform priorities and all schools involved in the project are exploring ways to attend to them at a local level.

</table>
| a. Incentives to attract high performing Principals and teachers                          | • support from Senior Advisor School Reform  
• support from Principal Consultant  
• professional learning on Teacher Framework and Development  
• leadership reviews  
| b. Adoption of best practice performance management and staffing arrangements that articulate a clear role for Principals | • evaluate teacher professional practice using a AITSL Teacher Framework  
• broad curriculum leadership in the school that oversees the Communities Making a Difference Program  
• all educators to effectively plan in a Professional Learning Teams supported by analysis of data and research in effective teaching strategies  
| c. Providing innovative and tailored learning opportunities                                | • Develop oral language teaching strategies  
• adopt teaching strategies which will improve literacy and numeracy outcomes for individual students through analysing data  
• maintain and further develop agreed literacy practices  
• continue to develop the role of coaching within the school  
• Use student data to track students’ progress to inform and develop more precise teaching practices  
• build student profiles for use to inform learning plans that address students’ needs, and monitor progress and development  
• develop Professional Learning Team Action Plans in oral language that align with school goals and address professional learning needs  
| d. Strengthened school accountability                                                      | • strengthen assessment and monitoring of student improvement in literacy and numeracy  
• based on analysed evidence ‘Individual Education Plans’ are created for students at risk to improve learning outcomes in literacy and numeracy  
| e. External partnerships with parents, other schools, business and communities and the provision of access to extend services (including through brokering) | • implement practices that enable collaboration between literacy and numeracy consultants, speech pathologist, teachers and Education Support Officers to enhance the coordinated support of students and their families  
• access consultants to work with students with identified needs and support teachers with best practice  
• provide opportunities for parents to be engaged in the process of learning through information sessions and reporting processes and develop agreed practice  
• continue to translate and provide interpreters for formal communication and meetings with parents  |
f. School operational arrangements which encourage innovation and flexibility

- appoint ‘Communities Making a Difference’ Coordinators in Numeracy and Literacy
- allocate staff meetings for Professional Learning Teams
- further develop structures to support Professional Learning Teams to achieve school goals
